SIDLEY HUB

NEWSLETTER

JAN 2026

Build Progress

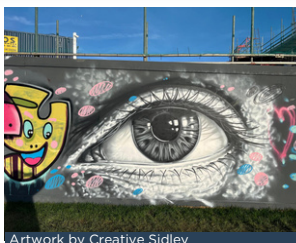

Works are now well underway at the new Sidley Hub. The carpark has been installed, providing a clean hardstanding for the contractors and preventing any significant debris soiling the roads. This also provides an area to park some of their vehicles, reducing impact to local residents and road users.

The foundations, steel frame, concrete beam and block ground floor, as well as the composite concrete first floor have all been installed.

The timber frame 1st floor has also been constructed, along with the ground floor masonry.

Over the past weeks roof coverings, windows and external cladding have all been completed, creating a weather tight building.

At this stage of the build, the main emphasis of the works will now move inside to commence the installation of the services.

Artwork by Creative Sidley

Embracing Art

Building the Sidley Hub is about more than just bricks and mortar! We've loved hosting the local artists invited by Heart of Sidley to decorate our blank site hoardings. As we build, we're excited to bring Heart of Sidley's vision to life with a permanent Graffiti Wall, ensuring the community's creative spirit has a lasting home at Sidley Hub!

Residents Feedback

Thanks for letting us know about the site lighting! Our Site Manager has adjusted the floodlights to focus on the compound and shortened the timer to just 10 minutes. We'd also like to reassure residents that for the permanent setup, we're using downward-facing, eco-friendly lights designed to keep the site and it's users safe without shining into your windows.

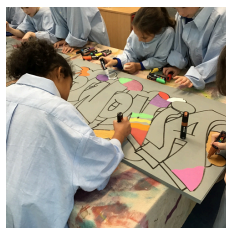

Did You Know?

Of the skips taken away from site,
96.48%
has been recycled.

At BMR we are committed to environmental sustainability.

Pupils from All Saints School, Sidley

Artists of the Future

The Sidley Hub site is looking even brighter thanks to a fantastic collaboration between Heart of Sidley, Priority 154, and Motivate Sussex!

We were delighted to get involved and provide some materials for the All Saints School workshops, where pupils created these fabulous pieces depicting their school values. Their artwork brightens up our work site every day—thank you to all the young artists and partners involved.

In The Community

We are dedicated to delivering social value and building meaningful relationships within our project areas.

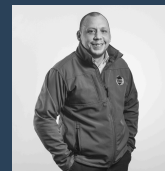

Throughout December it was a pleasure to work alongside Heart of Sidley and Motivate Sussex, to provide 150 free festive meals for the local community, with performances from local singer Yasmien Huband.

Additionally, our partnership with Freedom Church for a community carol service was a festive highlight, successfully bringing the local community together for a memorable evening of festive cheer.
